

IP + Optical Network (iPOP 2015)

The 11th International Conference on IP + Optical Network (iPOP 2015)
April 20-22, 2015, Okinawa Jichikaikan, Naha Okinawa Japan
<http://www.pilab.jp/ipop2015/>

The conference, sponsored by [PiL](#) and [Isocore](#), has provided opportunities for both the industry and the academia to share their knowledge, new findings, and experiences on the state-of-the-art IP and optical networking technologies for the past ten years.

CALL FOR PRESENTATION

The Technical Program Committee for iPOP 2015 is soliciting presentation proposals for this conference. Architecture and protocol designs, experiments/PoCs/field trials, theories/algorithms, implementations, and operational experiences are solicited.

The topics of the conference will include but not be limited to the following:

- Control plane (MPLS/GMPLS, OpenFlow, etc)
- SDN for packet and optical transport networks
- MLN/MRN (Multi-Layer/Region Networks)
- TE (Traffic Engineering), PCE (Path Computation Element)
- Network abstraction/virtualization
- Flex-grid, elastic optical networks
- Optical networking/switching for cloud services
- Data center and WAN orchestration
- Carrier Ethernet and MPLS-TP for backhauling
- Service function chaining for mobile networks
- Security
- QoS/QoE (Quality of Service/Experience)
- Network operation and management
- Standardization/interoperability
- Open Source Software (OSS) for SDN/NFV
- DevOps

SUBMISSION GUIDELINE

Submit an extended abstract (400 words, 1 page), including figures and diagrams, speaker's name, affiliation, and contact information, to the Technical Program Committee: ipop2015-cfp@pilab.jp. Please visit <http://www.pilab.jp/ipop2015/> for more details.

IMPORTANT DATES

Submission deadline of one-page abstract: ~~January 16, 2015~~ **January 30, 2015 JST (extended)**
Notification of acceptance: **February 23, 2015**
Submission deadline of final presentation slides: **March 13, 2015**
